

## Does the Halex squeeze bottle fit my bike cage?

---

The 24oz Halex Insulated bike bottle is designed to fit inside a bike cage. However, due to its height, it will not fit in all bike frames. Some mountain bike frames and smaller bike frames do not have the space for large bottles.

Be sure to measure your bike frame before purchasing the Halex Insulated squeeze bottle.

The 32oz Halex Sport bottle is not designed to fit inside a bike cage.

### **Dimensions:**

Halex Insulated Bike: 3.09" x 3.09" x 10.71" - Base Diameter is 2.75"

Halex Sport: 3.09" x 3.09" x 10.71" - Base Diameter is 2.88"

PERFORMANCE HYDRATION
